December 19, 1963

Mr. Elgin E. Crull City Manager City of Dallas

Sir:

Attached is a report covering my activities concerning the visit of President John F. Kenndy to the City of Dallas on November 22, 1963; his assassination and the subsequent investigation and slaying of Lee Harvey Oswald on November 24, 1963.

Also included is a staff summary covering the planning of each event of the President's visit and the activities of staff and command personnel relating to his assassination and the investigation and slaying of Lee Harvey Oswald.

Chief of Police

JEC:cp

Mr. Elgin E. Crull City Manager City of Dallas

Sir:

On Friday, November 22, 1963, I was driving the lead car of the Presidential Motorcade. In the car with me were Secret Service Agents Forrest Sorrells and Lyn Lawson, and Sheriff Bill Decker. We had led the notorcade from Love Feild on the prescribed route. We turned right on Main Street from Harwood Street. We continued on Main Street west to Houston, where we turned right to proceed to Blm Street, We made the left turn (west) and were proceeding at a speed of approximately 8 to 10 miles per hour. The time was about 12:30 p.m. We proceeded toward the Triple Underpass which is about one block from Houston Street. As I recall, we were about half-way between Houston and the triple underpass when I heard a sharp crack. Someone said, "Is that a firecracker?" After this remark, I remember hearing two other sharp reports. All of these reports were fired fairly close together. There was perhaps a longer pause between the first and second reports than between the second and third. At this time I glanced into my rear view mirror and could see a commotion in the President's car which I believe was about 100 feet behind our car at this time. At this time we could see that the Presidential car was speeding up and someone in the car said, "Let's get out of here." Then a solo motorcycle officer pulled up behind my car and I asked, "What has happened in the Presidential car - has someone been hit?" The officer said, "Yes." I told him to head for Parkland Hospital, which is the nearest hospital from that location.

I issectiately went on the air and informed the dispatcher to notify Parkhand Hospital to stand by for an energency. I then boodcast orders to surround the building issectively, meaning the business which the shots had been fired. We then proceeded out Stemants Empressary to Industrial Boulevard, to Harry Mines Boulevard to the \$300 block, to the energency entrance of Parkhand Hospital. I alighted from the car and rushed in and told some of the attendants standing by to bring the stretchers out. I spent some time in the hospital then.

While I was at the hospital, I was told that Officer J. D. Tippit had been shot and killed about 1:15 p.m.

Fidox, November 22, 1963. After leading the presidential cars to Parkhand Mospital, Temained at the bospital for some time (perhaps 45 minutes or an hour). Someone from the Secret Service detail asked Inspector II, J. Putman and ne to have some care standing by President Johnson to Love Field, In a few minutes the President and some Secret Service agents got into my car (I think there were three agents). I believe Mrs. Johnson and some other people got into

I was requested to take the most direct routs to Love Field where the presidential planes were paired. We proceeded to Love Field and the Fresident, Mrs. Johnson, Secret Service agents and others, boarded the presidential plane. Sometime later, an ambulance and several services are the presidential plane. Sometime later, an ambulance and several services are the president of the president plane. A case of the president plane is a standard from the which can be about the plane.

A short time later I was informed that Judge Sarah Hughes was enroute to administer the oath of office to President Johnson. When she arrived, I escorted her abound the plane and witnessed the President taking his oath of office. Then I escorted Judge Hughes back to her car, and saw Mayor Cabell and his wife and talked to them.

After the President's plane departed, I returned to City Mall about 3x5 or 400 p.m. I saw that many newsmen were in the basement and were crowded into the north corridor, thind floor. Some efficers were near the elevator screening people show were getting off the clevators to determine what business they had on the third floor. Two officers (uniformed) were stationed just countain the Monicide office.

I was told that the suspect in the slaying of Officer Tippit was a prime suspect in the assassination of President Kennedy.

I was in and out of the Homicide office several times during the remaining part of the day. About 7:00 p.m., Captain Fritz told me he was ready to file charges against Lee Harvey Oswald for the nurder of Officer Tippit. Several times during the evening, I saw and talked to Mr. William Alexander and District Attorney Henry Wall.

The investigation continued and near midnight charges were accepted by, I think, Mr. Wade (I was not present), against Oswald for the murder of President Kennedy.

During the evening, the FBI had approached me several times and saked that Vince Drain, one of their spents, be permitted to take all of our physical evidence to their laboratory in Washington, D.C., to be examined. It was decided to release our physical evidence to Mr. Drain control of the property of the property of the examination, then return it to the TD. C., what for the reports of the examination, then return it to the TD. So we was turned over to Drain bout 12 sidnifely, Friday, November 22, 1995.

About 1:30 a.m., Justice of the Peace David Johnston arraigned Oswald in the Identification bureau. I was present for the arraignment, and went home a short time later.

Saturday, November 23, 1963: I arrived at the office about 8:30 or 9:00 a.m. During the day, I conferred with my staff and many other

persons. I do not remember all of them. I was asked many times by measure when Depards would be transferred to the County Jail, I told them I did not know. I talked to Captain Fifts about the time of transfer and he told me he was still talking to Dewald. I asked with the thought be would be ready to transfer the prisoner by 10000 a.m., Surday, November 23, and he said, "I think so." On Saturday evening, I don't recall the hour but I think it was about 7000 p.m., several necessor asked as again if we were going to transfer downlot that night. I replied, "No" and someone asked if we would transfer him on Sunday and when they should once back to the City lail. I told them if they were here by 10100 a.m., they would be in a I recall.

Sunday, November 24, 1963. I arrived at the City Hall about 9:00 an., and as I approached the Jail Office I saw Lieutenant Wiggins. I saked him to have parking stills #1 and #2 weared as we wanted to with the corridor leading from the basement parking area into the City Hall basement. There was a large TV camera in the Corridor and I told the operator that it should be nowed across the ramp drive into the parking stalls. At this time, Assistant Chief Batchelor and Deputy Chief Inversaon came up to an and so brieffy discussed our security Chief Inversaon came up to and as brieffy discussed our security across the ramp in the parking area and no one else, except police, would be absilted. I then went up to my office on the third floor.

A short time later, I called Sheriff Decker and informed him that we were ready to turn Oswald over to him and he said, "Me are ready, bring him on,". I replied, "I thought you were coming after him' and he replied, "Sitter way is okay with me." I told him that we would bring Oswald to the County Jail and would call him just before we left the City Mail.

I told Assistant Chief Batchelor and Deputy Chief Stevenson that we would transfer Oswald to the County Jail. Since threats had been made against Opwald's life, we decided to try to obtain an amored car for the transfer. Assistant Chief Batchelor got in touch with Mr. Harold J. Plening of the Armored Motor Service. He agreed to get in touch with this divers and send us too trutch. We could use either of them. Shortly after this, Assistant Chief Batchelor and Deputy Chief Stevenson told se they were going down to "Check the basement,"

I went to Captain Fritz' office and found him interrogating Oswald. Present were representatives of the FBI and Secret Service, as well as two or three of our own detectives. I returned to my office and at about 10:45 a.m., Assistant Chief Batchelor told me the armored cars were on their way. I saked him if everything was okay in the basement and he said that if was. He affect has pectators on Commerce Street had been moved across the street and the news media were "in their place." He left for the basement to line up the vehicles for the transfer.

I called Sheriff Decker again and told him we planned to transfer Oswald in an armored car and told him our route of travel. I informed him we planned to drive the truck into his security area at the rear of his jail. He agreed and said they would be ready.

I then went to Captain Fritz' office and listened to the interrogation of Oswald for a few ninnes. When I had an apportunity, I select Captain Fritz if he was about ready to transfer Oswald. Re replied that he was and I told his our plans, Re told me he din't like the time and I told his our plans, and the conditional he had been as a crowd of people suse it would be too difficult to maneuer in case a crowd of people as a regular describeration. He suggested that transfer be made in a regular describeration of the control of

Deputy Chief Stevenson heard our change of plans and instructed Lieutenant Piece to go to the basement, get a car and two ena and position the car to lead the amored car. I told Captain Fritz I would go on downstatis, and as I was valling down the third floor corridor, someone, I can not recall who it was, told ne that Mayor Cabell wanted to tail to ne on the phone. I went to the phone to talk to the Nayor and that it can not not his whom Capada was shot. In a few nimutes I was told that a man manced Jack Robys had short Osmala and that the wound was serious.
